Date of Birth: 12/09/1995 | Nationality: Turkish		

Profile

I grew up moving across countries and cities, which gave me a multicultural perspective and a habit of staying curious. Now based in Istanbul, I'm interested in how people make decisions, where emotional meaning meets practical value. Research is a big part of how I work, and I like making sense of messy information. I hold an MA in Marketing (Consumer Behavior) from Istanbul Bilgi University (thesis on consumer loneliness and purchase intentions) and a double major in Psychology & Sociology. I apply this behavioral lens to practical problem-solving, and I'm happy to use LLM tools or a small automation when it genuinely helps.

Education

Istanbul Bilgi University — Istanbul, Turkey

MA in Marketing (Consumer Behavior) | 2022 – 2025 | *GPA: 3.76*
Thesis: *Consumer loneliness and its impact on purchase intentions*
(Original title: "Lonely Minds, Meaningful Choices: Mapping Intentions in Health, Experience, and Hedonics")

Istanbul Bilgi University — Istanbul, Turkey

Double Major: Psychology & Sociology | 2017 – 2021 | Honours | ECTS: 339
Final GPA: 3.27 | Psychology *GPA: 3.45* | Sociology *GPA: 3.08*
Undergraduate Thesis: *The Relationship Between Terror Management Theory and Schwartz Values*

Ministerium für Schule und Berufsbildung des Landes Schleswig-Holstein — Lübeck, Germany

Mittleren Schulabschluss | 2015

Open Education High School — Turkey

High School Diploma | 2017

Work Experience

Applied AI & Automation Projects (Freelance / Independent) | 2022 – Present | Remote / Istanbul

- Use LLM tools (e.g., Claude Code and others) to support problem-solving, drafting, and quick prototyping
- Research existing examples/cases and adapt them to the needs of the task (research → summary → application)
- Build small automations with n8n when a workflow is repetitive or needs lightweight orchestration
- Experiment with integrations (Telegram/Twitter/API) and adjust to API updates/changes
- Run web research and basic data collection/scraping experiments (where permitted)
- Portfolio: DM for examples (Vercel)

Web3 & Community Operations (Freelance) | 2021 – 2024 | Remote
Projects: Ukiyo; Elite Emperors

- Managed community operations: announcements, engagement, support, and coordination
- Helped structure messaging and narrative tone in line with project goals and community needs
- Supported pre-sales communications and day-to-day coordination with collaborators

Sales Manager — CP Makina | 2023 – 2024 | Istanbul, Turkey

- Supported sales planning and monitored performance
- Built and maintained client relationships
- Helped improve product information and sales materials for clearer communication
- Participated in negotiation and closing processes

Sales Representative (Part-time) — Beymen | 2016 – 2017 | Istanbul, Turkey

- Customer-facing sales and service; supported store performance through client engagement

Assistant Specialist — Forte Tourism | 2014 – 2016 | Lübeck, Germany

- Translation support and guidance for visiting medical professionals

Bartender (Part-time) — Dr. Rock | 2014 – 2016 | Lübeck, Germany

- Service and operations support in a fast-paced environment

Intern — I.S.S. International Sales & Services GmbH | 2014 | Lübeck, Germany

- Data entry and administrative support (UPS products)

Volunteer Experience

2020 - 2022: Head of Club, Bilgili Patiler — Istanbul Bilgi University

- Led vaccination and nutrition programs for campus animals
- Managed social media platforms
- Supported campus animal well-being throughout the COVID-19 pandemic

2020 - 2021: Volunteer Teacher Assistant (organizational psychology) — Istanbul Bilgi University

- Translated questionnaire items
- Optimized job satisfaction surveys
- Helped students with SPSS-related subjects

2019 - 2020: Volunteer Research Assistant (social psychology) — Istanbul Bilgi University

- Transcribed and supported analysis the interviews on womanhood

SKILLS & TOOLS

- **Applied AI / Workflow**
- LLM-assisted problem exploration & prototyping (Claude Code + others (including agents etc))
- Research → synthesis → application approach (case-based learning and adaptation)
- **Automation / Ops**
- n8n (basic automations & workflow wiring)
- API experiments & lightweight integrations (Telegram/Twitter)
- **Analytics & Productivity**
- Excel, PowerPoint, Word
- SPSS, Jamovi
- **Technical (basic)**
- Python (basic), Node.js (basic), Solidity (basic), Rust (basic), Three.js (basic)
- Blockchain structure

- **LANGUAGES**
  - Turkish — Native
  - English — C1-C2
  - German — Intermediate (Realschulabschluss background)
  - French — Basic

Interest areas: consumer behavior, practical applied AI, research synthesis, lightweight automation, emerging technologies, AGI, promotheus
